Nobles' Dressing Machine.—Col. Nobles and John P. Owen of St. Paul have been in town for several days with the working model of a new patent dressing machine. The Colonel is endeavoring to form a company and interest sufficient capital in the St. Croix Valley, to build a boat with the necessary apparatus and that at once. The model which he had here on exhibition has been submitted to the views of the best practical engineers throughout the country and they unanimously pronounce the place a feasible one and its success beyond a peradventure. Arrangements have been made for the building of this boat, which will be commenced as soon as the necessary capital is obtained. \$15,000 is the amount desired to be raised for this purpose. \$2,000 is the proportion which is confidently expected from this community. Col. Nobles informed us that \$500 was subscribed by persons and so difficult to participate in getting the remainder. A good deal of four feet deep from here to Prescott would be of the utmost benefit and importance to the growing interests of this place, it being the best of navigation. We trust our public spirited merchants and lumbermen will see it for their interest that the requisite amount be subscribed. We are informed that the other towns along the Valley have agreed to take their proportion of stock.

Is New Dress.—The *Hulton Star* & *Teece* has survived the ravages of tornado and fire and comes forth Phoenix-like from the ashes very much improved in typographical style and appearance and enlarged to an eight column sheet. We clip the following from the editorial remarks on their situation: "We write amid new surroundings to-day. We look around us and all we see is new. The dingy walls upon which were posted a thousand 'jokes'—hills, prairie, prairie, and cards—the old folks and prairie, more, dirt, and only the forms of type with their familiar faces the old clock tower and crumpled with the books, letters, papers and 'public documents'—the debris of editorial acquaintance—all are gone—swallowed up together in the mass of fiery ruin. Here we sit once again in which we dwell so easily to 'sit' and 'sit' from our surroundings, and write editorial and editorial, even this could not escape the universal doom, and we sit to-day in a straight backed chair instead, and write editorially in our accustomed seat."

Partridge Shooting.—The law prohibiting the killing of partridge, prairie chickens and such small game expired on the 1st inst. Now will be brought into requisition every available shotgun from the old-fashioned flint-lock to the last modern fall, and the slaughter of the innocents will be fairly inaugurated. The feathered bipeds are plenty hereabouts and the sport corresponding. ly huge. The utmost care should be exercised in the use of fire-arms so accidents are almost sure to occur unless the utmost care and caution prevail.

Lieut. General Grant has been appointed and confirmed General of the United States army, according to the provision of the bill, which recently passed Congress, establishing that rank. It is expected that Major General Sherman will now be promoted to the rank of Lieutenant General. Vice Admiral Farragut has also been confirmed as full Admiral.

Photographs.—Miss Stewart, at the Photograph Gallery formerly occupied by S. S. Hamilton, has photographs of jam of logs at this place in June, clearly showing the position of the Steamer *Della* at that time. She also takes photographs for \$3 per dozen.

New Goods.—Our merchants are constantly stocking up to keep even with the demand. Wm. Dobney of the corner store got up quite a lot of groceries &c., a few days ago.

A Race.—One of our St. Croix Packers on a recent trip to St. Paul overtook at a late hour of the night one of the largest steamers that ply on the waters of the Mississippi. The thought of a race then suggested itself to the valiant St. Croix Captain who commenced crowding his boat to its utmost capacity. He nervously paced the decks urging every man to his duty, and constantly asserting that the lights of the leading boat grow plainer every moment. Great excitement prevails on our little packet. This passed the few remaining hours of night and when the rays of early dawn tinged the eastern sky there dawned on the valiant captain's mind the realities of a situation about like this:—A Mississippi steamer tied to the bank awaiting daylight to move on, and his own boat stuck fast on a sand bar spattering and surging in fine style. It is dangerous to say race in the presence of that Captain.

River News.—The river is fast falling and unless we soon have rain will again be down so as to obstruct navigation. Already the boats are being delayed. As yet, however, the *Della* has been able to make her regular trips.

The *Pioneer* arrived Sunday with a large freight for our merchants as well as those at St. Croix Falls. The *Pioneer* will leave St. Paul regularly every Friday. Lewis Walker, in the office, is the right man in the right place, and by his strict attention to the business entrusted in his care, is gaining a large trade.

The *Minnie Will* is at Stillwater, but owing to the low water was unable to come to this place.

The business of the Saint Croix has been better this season than any year heretofore and is steadily increasing.

Don't be jealous, Chas. Folson, if you have got the *Della*, we will bring him up and introduce you.—*Polk Co. Press.*

Veil, Sam, your honesty is refreshing. Then that's what brings Horace up to see you. We had half-suspected something of this sort for some time, but were hardly prepared for this delicate acknowledgment. At your earnest request we will endeavor not to be deceived by the green-eyed monster until Dr. Greeley has effected a cure more radical than that spasmodic effort of yours for A. P. G. Randall. Poor Sam, we condole with you in your loss and affliction.

The *Milwaukee Sentinel* says of an old lady who arrived in that city in the last company of emigrants from Norway, who is now nearly 105 years of age. She had in the company four children, all married, twenty grand children, fifteen of whom are married, forty four great grand children, six of whom are married, and ten great-great-grand children, making in all Seventy Eight Descendants—all of them in the party. If we add the wife and husband of these direct descendants of the old lady, we will have a family of one hundred and still live, and is in very good health, although becoming quite infirm. The name of this wonderful woman "the mother of a mighty race," is Katrina Jansen.

Van the Stillwater Messenger's ready writer, got his right hand badly smashed recently while repairing a Gordon's Power Press.

About seven thousand Scandinavians have passed through Chicago this season for Minnesota, and more are expected.

PERSONAL.—Gustavus Munch, Esq., Auditor of Pine County and a quantum resident of our town, called on us a few days since. He gives a good account of himself since he left here and thinks Chagovana will be a metropolis yet. So do we.

Mr. J. W. Mullen is in town visiting his old friends and seeking out new ones. He has been steamboating this summer, but found it telling on his usual good health and now enjoys a reprieve.

Dr. Samuel S. Wood traveling correspondent for the Commercial Agency of Tappan, McKellop & Co., and agent collector for the Chicago Journal of Commerce has been spending a few days in this vicinity seeking health and pleasure in the sports of the season.

Tex St. Paul Pioneer has changed hands and will now be controlled over the Democratic-Unionist-Philadelphian-Convention-Locomotive-track. They open up in good style and avow their determination to be "in at the death." Go in, the course is open and free to all.

MAIL.—Ralph Taylor did the next thing to selling his contract to Burbank & Co., when he left the steamer *Della* and he to fill on alternate days with Burbank. For a wonder the mails have been daily until this date and we can only hope for their continuance.

QUARTERLY MEETING.—The fourth Quarterly Meeting of the M. E. Church at Taylor's Falls for the present conference year will be held to-day and tomorrow, (Saturday and Sunday.) First Service on Saturday at 8 p. m. Rev. J. F. Chaffee will be present and conduct the services.

CONGRESS finally adjourned on the 28th inst., after one of the most protracted and most important sessions on record. The people will have cause to thankfulness should the nation avoid ruin during Andy's interregnum.

The weather was somewhat warm the first of the week. For the last few days however it has been quite cool. Wednesday night there was every indication of a frost but for the high wind which was blowing at the time.

A question has arisen among the managers of the Philadelphia Convention, whether in view of the large attendance of Southern delegates, it will be sound policy to display the American flag.

Bosworth's PHOTOGRAPH GALLERY is now in complete working trim. His pictures are equal to the best in the state. We have always noticed a look of satisfaction on the faces of his subjects as much as to say that their photo's favored them.

Rains.—Notwithstanding there has been a bountiful supply of rain north, south, east and west of us, this locality has been slightly entirely, seriously injuring the crops of all kinds.

LOCALS are becoming scarce. The farmers are busily engaged in their peaceful avocations. The lumbermen are at river having and peace and quiet reign within our borders.

The next State Fair for Wisconsin is announced to be held at Janesville, the last week of September.

CONGRESS finally adjourned on the 28th inst., after one of the most important and protracted sessions on record.

Horses.—Many fine horses have been brought to this place this summer, bringing good prices.

A good Fanning Mill for sale cheap. Enquire at the big warehouse on the levee.

The Pioneer Store yesterday received a large order of dry goods, sheetings, &c.

The report of the Revenue Commissioner estimates the amount of whisky annually consumed in the United States at a gallon and a half for each man, woman and child in the country. British America is not far behind us, however, for it consumes annually a gallon and a quarter for each of the population. In Great Britain malt liquor prevails, for the people, whilst they consume only seven eighths of a gallon of whisky for each one, drink and average nearly a barrel of ale and beer apiece. Russia is the greatest whisky drinking country, the consumption averaging more than two gallons annually for each of the inhabitants.

DESPERATE.—A country editor having been out all day 'drumming up' delinquent subscribers with poor success, peculiarly wrote the following under inspiration, and dedicated it to the man who won't pay the printer.

May he be shod with lightning, and compelled to wander over gunpowder. May he have sore eyes, and a chestnut burr for an eye stone. May every day of his life be more desolate than the day of Algiers. May he never be permitted to kiss a handsome woman. May he be bored to death with boarding school misses, practicing their first lessons in his tormentors with poor success, peculiarly wrote the following under inspiration, and dedicated it to the man who won't pay the printer.

Wherein they did grant and convey to the said Charles D. Ellis and John S. Cawender, their heirs and assigns forever, all those tracts or parcels of land together with the appurtenances lying and being in the County of Pine and State of Minnesota, described as follows, to wit:

A SUNDAY A CENTURY AGO.

An old brown leather covered book, the leaves yellow the writing scarcely legible from time and decay; evidently an old neglected MS. To the fire or to my private shelf? which?

These were my reflections as I looked over the papers of my late uncle, the rector of a Sumner-street village.

I liked the looks of the book and decided for the shelf; and I had my reward, for I found in the crumpled characters, a simple story, evidently written towards the close of the century like this story I now transcribe into a more modern style:

One hundred and three persons have died of cholera in New York since 25th July.

The following honorary degrees were conferred by Lafayette College, at Easton, Pa.: A. M.—Daniel Holmes, M. D.; Amos Bousill, Fisher Hazard, A. H. Fetter, D. D.—Rev. John L. Janeway, Friesen, N. J.; Rev. M. B. Grider, Philadelphia; Rev. John Newlin Hazen, M. D., Princeton, N. J.; Rev. T. Edwards, President of Washington and Jefferson Colleges; Rev. T. Grider Ralston, Norristown, Pa.

Among the degrees conferred at the late Commencement of the Union College, Schenectady, New York, were that of L. D. on Rev. Secretary Seward, and that of D. D. on Rev. Lucius W. Bancroft, of Gambier, Ohio.

Mrs. John T. Hanson, the daughter of Oliver Goldsmith's younger brother, Charles, is living in Hoboken, N. J. She is eighty years old, and though formally rich, is now in destitute circumstances. Rev. Frederick Fitzgerald, of Hoboken, recently, more than a year ago, called on her in a call for which he has been paid.

A dispatch from Fort Reno, on the Powder River route to Montana, proves the truth of the dispatches forwarded by the Commissioners, Col. Taylor and McLean. It says that a party of Indians had paid Fort Reno a visit, and succeeded in driving off four males; all the cavalry horses were in herd, and no pursuit could be made. The Denver News says the Indians are becoming bold since they have run stock off from under the very jaws of the Indians at Fort Lincoln.

It is reported by Fort Lincoln troops, it is furnished with ammunition in large quantities with the knowledge and consent of the Commissioner. After the supply at the fort was exhausted, the Indians were sent for from Denver, and dealt out in the same manner.

To ex-Gov. Pollock, Director of the United States Mint at Philadelphia, twice a year comes a shambling, ill clad man, who claims to be entitled to the interest on some millions of dollars. Every year at the Mint knows him, and treats him with sympathy and tenderness. Gov. Pollock converses with him kindly, and with the assurance that the Government must "very soon" be ready to settle with him, the unfortunate monomaniac takes his leave. He does not reappear for six months.

The following are among the solid incomes reported in the 6th District of New York city: John C. Green, \$338,082; James Lenox, \$117,669; Cornelius V. Roosevelt, \$114,432; Joseph Simpson, \$117,657; John B. Hall, \$109,282; William B. Astor, \$1,155,050; Paul Spofford, \$147,727; John T. Johnson, \$121,111; Cornelius Vanderbilt, \$624,800; Bonner, \$121,111; the New York Ledger, reports \$165,000; Jay Cooke, \$255,000; Charles Astor Bristed, \$148,557; Hiram Cassation, of the New York Hotel, \$10,419; Adolph Wolfe, \$41,104; John J. Donaldson, \$64,347.

Gen. Sherman, on the 6th of August, will start on a tour of inspection to the Rocky Mountains, which bound his department on the west. The object of this journey, which will require some three months to complete, is to personally locate stations of rendezvous for troops engaged protecting the trains of emigrants and stages across the plains.

Havana advices of the 25th state that news from Jamaica to the 14th announce that the action of Gov. Eyre had been sustained by the British Parliament, and so the testimony was to be presented him prior to his departure for England on the 25th.

Miss Clara Barton, whose devotion to sick and wounded soldiers in the late war is so well known, proposes, in compliance with a request, to lecture the coming season on "Personal Reminiscences of Scenes on the Battle Fields."

A SUNDAY A CENTURY AGO.

An old brown leather covered book, the leaves yellow the writing scarcely legible from time and decay; evidently an old neglected MS. To the fire or to my private shelf? which?

These were my reflections as I looked over the papers of my late uncle, the rector of a Sumner-street village.

I liked the looks of the book and decided for the shelf; and I had my reward, for I found in the crumpled characters, a simple story, evidently written towards the close of the century like this story I now transcribe into a more modern style:

One hundred and three persons have died of cholera in New York since 25th July.

LATE NEWS ITEMS.

A destructive fire occurred at Rome, N. Y., on Sunday, a loss of \$150,000.

The following are the losses: Coleman, of the Willist House, \$1,500—insured; Benjamin V. Huntington, \$500, and Edward Huntington, \$700—both insured; Hester March, of New York, \$45,000—insured; \$18,000; P. White, shoes, \$1,200—insured; S. Brown, butcher, \$500—insured; Jay Hathaway, \$300; W. Nelson, stove, \$250; J. Rowley, grocer, \$800—insured; Orson Knowlton, saloon and dwelling, \$2,500; Charles Hemans, millinery, \$300; Stillwell & Wardwell, grocers, \$3,000; J. Snodgrass, tobacconist, \$700; T. G. Halley, hats, \$1,500—insured; O. F. Greene, druggist, \$500—insured; J. P. Mattoon, cabinet maker, \$1,200—insured. The whole brick block owned by Hester March, including the postoffice, was destroyed. Everything in the post-office was saved.

On the election of overseers (governing body) of Harvard College, on the 15th instant, an amusing incident happened.

An elderly gentleman, approaching to vote, was told by the inspector that he could not enjoy that privilege. The gentleman asked why not, and was told that he was dead. Very much astonished, he declared emphatically that he was alive and in good health. The inspector then showed him the catalogue, upon which his name was starred. A well known physician being present, was appealed to; he recognized the gentleman declared to be dead, who was then allowed to cast his vote.

At the close of the war Adams Express Company advanced \$500,000 to the Virginia railroad companies, upon the understanding that they should not carry freight for any other express company at a less price than they were paying. Under these circumstances, the express under Gen. Joe Johnston's management cannot complete, and the railroads, having re-established themselves, are endeavoring to get an end to their arrangement with Adams Express Co. The case is in the U. S. Court, and will be decided next week.

A Lecture to Young Men.
Just published, in a sealed envelope. Price
6 cents. A Lecture on the nature, treat-
ment and radical cure of Syphilis, Gonorrhea,
Seminal Weakness, Irregularities, Nervousness,
Sexual Debility and Impediments to Marriage
generally. By Robert J. Culverwell, M. D., author of the "Great
Book," &c. The world renowned author, in
this admirable Lecture, clearly proves, from
his own experience, that the awful conse-
quences of self-abuse may be effectually re-
moved without Medicine, and without dan-
gerous surgical operations, bangles, instru-
ments, rings, or corsets, pointing out a mode
of cure at once certain, efficient, by which
every sufferer, no matter what his condition
may be, may cure himself cheaply, privately
and radically. This Lecture will prove a
boon to thousands. Sent under seal to any
